Covid-19 – Level 4: Operations

2020/05/13

To whom it may concern,

Please Note:

Following the President's address, in line with the Rules and Regulations pertaining to Level 4, the following has been put in place as per the Disaster Management Act, 2002 (No. 43258, dated 29 April 2020). Logichem is continuing to work from home as far as possible. We have 30% of our employees on shift rotation with a Compliance Officer present daily to ensure Logichem adheres to the Risk Adjusted Strategy Regulations that has been put in place.

Logichem is in possession of a Companies & Intellectual Property Commission (CIPC) Certificate, which is continuously being updated.

Logichem is operating under strict Health & Safety conditions, with our office hours reverting to 'normal' working hours where possible.

To ensure someone is present, please arrange at least one day in advance for deliveries.

Our existing Clients and Suppliers can continue to reach us on our central e-mail address, namely logichem@iafrica.com and we will be in contact as soon as possible. Where necessary we will arrange a Zoom/ Skype meeting to aid in the prevention of the Covid-19 virus spread, while still being able to gather the desired information required to assist you in your upcoming project.

However, if a site visit is required, you will need to issue "Logichem Process" or "Logichem Process Equipment" (depending on your needs) with your company's Essential Service Letter.

Any new Enquiries, please fill out the form under "Contact Us" on our website <http://www.logichem.com> and we will get back to you as soon as possible.

We continue to wish everyone well for the coming weeks.

Regards

THE LOGICHEM TEAM
